3.10.4 Why strategies fail

Unit 3.10 Managing strategic change · 7 key points

- **Difficulties of strategic decisions:** uncertainty, long time scales, high cost
- **Planned strategy:** decided in advance
- **Emergent strategy:** develops in response to events
- **Strategic drift:** business keeps the same strategy while its environment changes
- **Trap:** strategic drift is not a deliberate decision
- **Evaluating performance:** comparing results with objectives and with rivals
- **Reasons for failure:** poor planning, poor implementation, changes in the environment
