3.10.4 Strategic and contingency planning

Unit 3.10 Managing strategic change · 6 key points

- **Strategic planning:** setting long-term objectives and how to reach them
- **Value of strategic planning:** direction, coordination, use of resources
- **Limitation:** the future is uncertain, so plans need reviewing
- **Contingency planning:** planning for possible events that would disrupt the business
- **Crisis management:** responding to a crisis as it happens
- **Value of contingency planning:** faster, better response; less damage
