3.2.1 Management and leadership

Unit 3.2 Managers, leadership and decision making · 6 key points

- **Management:** planning, organising, coordinating and controlling resources
- **Leadership:** setting direction and influencing and inspiring people
- **Role of managers:** set objectives, analyse, lead, make decisions, review
- **Management v leadership:** managers focus on systems and control; leaders focus on vision and people
- A good manager often needs both skills
- **Effective leadership:** depends on the situation, the task and the people being led
