3.3.3 Targeting, positioning and market mapping

Unit 3.3 Marketing management · 7 key points

- **Targeting:** choosing which segments to aim at
- **Niche marketing:** targeting a small, specialised segment
- **Mass marketing:** one product aimed at the whole market
- **Positioning:** how the business wants customers to see the product compared with rivals
- **Market mapping:** plots brands on two criteria customers care about, e.g. price and quality
- **Value of market maps:** show gaps and where rivals sit
- **Trap:** a gap on a market map is not always an opportunity; there may be no demand
