3.7.6 Technological change

Unit 3.7 Analysing the strategic position of a business · 6 key points

- **Technological change:** new products, processes and ways of working
- **Effect on marketing:** online sales, digital promotion, data on customers
- **Effect on operations:** automation, quality, lower unit costs
- **Effect on HR:** new skills needed, training, possible job losses
- **Effect on finance:** investment needed; can lower costs over time
- **Effect on strategy:** can create new markets or make existing products obsolete
