3.8.1 Choosing markets and products

Unit 3.8 Choosing strategic direction · 6 key points

- **Factors influencing which markets and products:** objectives, growth of the market, competition, resources, risk, fit with core competences
- **Strategic direction:** which markets to compete in and which products to offer
- **Reasons for different directions:** market saturation, new opportunities, spreading risk
- **Value of a clear direction:** focuses resources and decisions
- **Risk:** rises the further the business moves from what it knows
- **Market attractiveness:** size, growth, profitability and level of competition
