3.9.3 Globalisation and emerging economies

Unit 3.9 Strategic methods: how to pursue strategies · 6 key points

- **Globalisation:** growing links between economies through trade, investment and communication
- **Reasons for globalisation:** easier transport and communication, fewer trade barriers, multinationals
- **Emerging economies:** countries with fast growth and rising incomes
- **Importance of emerging economies:** growing markets and lower-cost production
- **Risks:** political instability, weak infrastructure, currency changes
- **Effect on UK businesses:** wider markets, but more foreign competition
